1908 - 1910

Aug. 27. 1908

My dear Mr. King:-

I went up to the Society yesterday afternoon for the first time in over two weeks — having been away on my vacation — and found your most welcome letter, of 18th inst., with check for $50. for the Building Fund, waiting for me, together with considerable other correspondence.

I desire to thank you, on behalf of the Society, for this contribution.

Hoping that you are well and have had a pleasant summer I am

Very sincerely yours

Dear Mr.Kunz:-

I take pleasure in informing you that President Huntington has appointed you a member of the Committee on the Publication of Models,for the current year.

As you know,Mr.Adams is the Chairman of the Committee.

You are also co-opointed a member of the Committee on American Medals.

Can you give me Mr.Dettinger's address ?

Things are flourishing as here,donations come in all the time.When are you coming up to see us ?

Very sincerely yours

American Numismatic Society,
156th St. west of Broadway,
New York City.

Dear Mr. Belden:

Will you kindly thank Mr. Archer M. Huntington for his courtesy in appointing me to serve on Committee, and the American Insignia Committee? I will endeavor to render some service to the societies. If, however, there is any other member who is likely to be a large contributor to the Medal Committee, I will gladly resign to such a party.

What is the American Numismatic Society going to do about the exhibition to be held in the fall commemorative of the Hudson-Fulton Celebration? Will you kindly think the matter over, and also advise with Mr. Huntington?

Believe me,

Very truly yours,

George F. Kunz.

My dear Mr.Kunz:-

Your letter of the 28th instant came duly to hand,I will submit it to Mr. Huntington the first time I see him.

Much obliged for Mrs.Oettinger's address,I wrote to her to ask if she had any list of those Red Cross medals and decorations,as we are having great difficulty in identifying some of them; I enclose her reply,if she gave you a list and you still have it,will you kindly send it to me,as we need something of the kind very badly,some of the decorations have nothing on them to show what country they are from,and we are hung up completely until we can find some reference to help us out. I do not know of any book on the subject,a few are described in a small German book on foreign decorations,that we have,and others can be identified by the inscriptions.

With kind regards,I am,believe me,

Dear Mr. Belden:

In response to your favor of the 30th ultimo in regard to a list of Red Cross medals, Mrs. Oettinger said she left it with me more than a year ago. It is possible the list may have been left, but I am not sure about it. Whether the letter was returned or not I cannot say. Why not send Mr. Saltus a simple list of some kind to show him the Society appreciates it?

Believe me,

Very truly yours,

George F. Kunz.

April 8,1908

Mr.George F.Kunz,
401 Fifth Avenue,
New York.

Dear Mr.Kunz:-

Your favor of yesterday at hand. Mr.Saltus has already been notified that the Society passed a special vote of thanks for the Red Cross collection.

We are now mounting the decorations on black cards,similar to those used for our other decorations,and when that is done,the collection will be displayed in a separate case,duly labeled "The J.Sanford Saltus Collection of Red Cross Medals and Decorations".

To do this properly,however,it is necessary to mark on each card what the decoration is,as I wrote you before,it is impossible to identify some of them without this list,or some work of reference on the subject,I do not know of any book that would help us out; consequently,unless this list can beobtained,we will not be able to make a complete arrangement and display of the collection.

If you can hunt it up I will be very glad,as I am trying to make the best show possible of the collection.

With kind regards,

Very sincerely yours

Dear Mr. Kunz:-

This Society contemplates holding a public exhibition of coins and medals in the fall or early winter.

At a meeting of the Council, on the 5th instant, a committee was appointed, to secure, for this exhibition, by loan or donation, large sculptor's plaques of important and artistic medals.

The committee to consist of Mr. Edward J. Seitzer, 1060 Madison Avenue, Chairman, Messrs. Octave Morisque, Victor D. Brenner, Edward D. Adams and George F. Kunz.

Trusting that this will be agreeable to you,

I am, believe me,

Dear Dr. Kunz:

I find an other mistake in the engraving, this time , I regret to say,it is my to me, (How much pleasanter it is when the other fellow makes the call ! ) The date on Dr. Powell Martin's medal should be 1876, not 1806, this is a mistake of the printed list of members from which we took the dates, which I did not discover until just now..

I would think too I could easily be convinced to do, if there was what can be done about it.

As regards to have a Council meeting on Saturday afternoon, at which both Dr. Parish and Dr. Martin will probably be present, I would be glad if I could give them their medals at that time.

Are there any large models of this medal, either bronze or plaster ?

To the Council,
The American Numismatic Society,
156th St. west of Broadway,
New York City.

Dear Sirs:

I have been a member of the American Numismatic Society for some fifteen years and have greatly enjoyed attending, from time to time, the meetings of this Society as they are frequently of unusual interest.

These meetings, for some thirty years or more, as I understand, have been held on Monday evenings, an evening which seems to me to be very convenient to many of the members and their friends who were present both in the

old quarters and in the new.

If the meetings are transferred to Saturday afternoon, it will be virtually impossible for me to attend any further ones, and in looking over the list of some thirty organizations I belong to, I find that this is about the only Society that holds its meetings at that time.

As council meetings can be held at any time to suit the convenience of the Council and since meetings frequently are held in the afternoon, would it not seem advisable to have at least half of the regular meetings held in the evenings and the other half on Saturday afternoons?

Trusting this matter will receive the consideration which it seems to me it

deserves, I remain, believe me,

Very respectfully yours,

George F. Kunz.

Your letter of [illegible]

at the next meeting, which [illegible]
the course of a week.

The arrangements for the annual meeting,

I thank you for your very courteous favor of the 7th instant. I am in no hurry to have the matter decided. This can be done in the course of months; it simply seemed to me that in order to do the greatest good the resumption of part, if not all the evening meetings would resume be desirable.

My dear Dr. Kunz:

I enclose herewith, as usual, for $[illegible] for repairing the step. The other item on this bill for $1.1[illegible] for engraving silver medal is something that, in the first place, should not be on a bill to me personally as all of that work is for the Society and at any rate I am a little curious as to that charge, $1.1[illegible]. I remember seeing it engraved under the eye of the medal. The same charge is $[illegible].00 each for the silver commemorative medals which, I presume, include the engraving. There has not been any extra charge on any of the bills according to this case and this was a charge for engraving the name on a single medal which had been delivered here and which I sent down to you for that purpose.

Since we went over the accounts at your office, I have not received any bill and the Society has not been called for any of the commemorative medals for that reason.

Also a copy of the catalogue of the medals belonging to the Society that were issued for the same exhibition, in which you will find the French Mint medals which number from 1278 to 2245 among which are a number of medals [illegible]. Everything in this catalogue is the property of the Society. I also send a photograph of the four large plaques and some smaller Roty medals that the Society has. Also a proof of the biography for the revised edition of the catalogue, and a manuscript list of the medals that were in the exhibition. This list, I would be glad if you would return to me when you are through with it. This is about all the Roty material that I have at present and I hope you will find it of use.

Saturday morning.

My dear Mr Kunz

Replying to yr letter of April 10th, my preceeding letter will have informed you, that Mrs Hewitt desires to present both a silver & bronze medal & I am therefore sending them with this by bearer, so that you will be certain to get them in time to take with you to the meeting this afternoon.

May I also thank you for the two cards of invitation you so kindly sent me, & if possible, I will try to avail myself of them today as I should like exceedingly to hear yr address.

The following account will I believe supply you with all the information you asked for in yr last letter, but if there is anything else you would like to know, pray do not hesitate to telephone me as soon as you receive this ( N° 826 Gramercy) & question me as categorically as possible, for both Mrs Hewitt & I consider she is not only most fortunate, but highly honored by having the presentation of the medal made by such a distinguished Alumnus of the Cooper Union as yourself.

Mrs Hewitt carrying out a long cherished project during many years, availed herself of her last visit to Paris in 1906, to commission Roty to ~~make this medal for her~~ design & execute this medal for her & paid him for it herself in 1907, as soon as it was delivered.

This medal ~~was~~ struck to commemorate the 50th Anniversary of the foundation of the Cooper Union , was entirely due to Mrs Hewitt's inspiration. She had several personal interviews with Roty, when she explained to him the ideas she wanted embodied & she submitted to him a number of photos of my Grandfather's head in various positions, also photos of the

Cooper Union Building, which she had made for that purpose.. Roty took this opportunity to carefully study the expression & brilliancy of her eyes, with the greatest attention, after we had informed him they closely resembled in caracter & expression those of her father.

The original silver & bronze medal struck by Roty, were presented to the Trustees of the Cooper Union at a dinner, given by her expressly for this occasion, when Mrs Hewitt read a little speech of presentation, which you will find accurately printed on Page 10. of the Report which I am sending with this for yr consideration.

This same Report also contains a letter (Page 8.) which Mrs Hewitt subsequently wrote Mr Larson the President of the C.U. after the dinner, at which he accepted the medal with a speech in reply to Mrs Hewitt's which was followed by one from Mr Carnegie.

In her second letter (Page 8.) you will see just how Mrs Hewitt desired the medal should be awarded & in Mr Larson's reply to it (Page 9.) is subjoined a copy of the Minutes of the Trustees which contain the Resolutions carried to put Mrs Hewitt's wishes into effect.

I may pardon this hasty line, in which I trust I have covered all the necessary ground & with kind regards & many thanks for the interest you have taken in this matter, Believe me

Sincerely yours

Varnum Lansing Hewitt

I have made several efforts to have this done without any lasting success.

I am not sure just now soon I could get hold of the cuts of Roty's medals that [illegible] in our catalogue and [illegible] providing you could spare us any of them. You have a catalogue so you can see just what you need. These cuts are now being used to print the new catalogue, but I think if they are needed, I can get them in the course of a few days; that I can find out. You spoke of illustrating the first and last of Roty's [illegible] I believe you have photographs. This, I think, would be most interesting. I will try and get in to see you very soon. In the meantime I will be very glad to know anything you can tell me regarding it.

With kind regards, believe me,

Very sincerely yours,

My dear Dr. Kunz:-

I have just received your letter of November 22nd. As it will take us at least [illegible] weeks before we could have your article, and I suppose that, with your busy season, it might be even longer, I think it will be better not to hold the journal back as it is supposed to come out in January. We can run the remainder of your article in the first number of next year, which we will hurry up and try to get out a little earlier than the last two or three numbers. This will give us a little breathing space, and I will try and get in to see you sometime before very long, and talk over the question of illustrations.

Very sincerely yours,

My dear Dr. Kunz:-

I have received Tiffany & Company's letter of May 27th in which it is stated "in regard to the engraving, we beg to inform you that where there are such long inscriptions involved, it will be impossible for us to do the work without charge".

As regards this I have not been trying to get the engraving done without charge, but simply trying to find out what you are going to charge me for striking the bronze commemorative medals. For the first bronze medals that you furnished, I was charged two dollars, after that I was charged three dollars, and some of the medals purchased at these prices were engraved and some were not engraved, consequently I am entirely at sea as to just what I will have to pay for these medals in the future. Can you not inform me what will be the price of the medals without engraving, so that I will know where I will stand on any medals that I may order in the future?

As regards the four Roty photographs, I do not know what Miss Baldwin has done with them. I have written to her about it, and as soon as I can get hold of them I will send them back to you.

With kindest regards, believe me,

Very sincerely yours,

My dear Dr. Kunz:-

Referring to our conversation this morning I would say that the building of this Society is open every week day from 10 A.M. to 5 P.M. and on Sunday from 1 to 5 P.M., and we will gladly welcome the delegates of the International Congress of Applied Chemistry, the International Congress of Testing Materials and the Geographical Congress at any time that they may find it convenient to visit the building.

Should it be desired that any considerable number of the delegates would like to visit the building either in the evening or on a Sunday morning, it would give me great pleasure to make the necessary arrangements for their reception, providing, of course, I should have a reasonable notice.

My dear Dr. Kunz:-

In one of the Joan of Arc books sent up here, Life Lessons from Blessed Joan of Arc by Father Bernard Vaughan, S. J., I find the following two illustrations:- "She can neither read nor write" from a bronze medallion by the Bromsgrove Guild of Artists, and "For God, King and Country" from a silver medallion by the Bromsgrove Guild of Artists.

It has occurred to me that if these medallions could be obtained they would be most important additions to the exhibition, and if any one felt inclined to give them to the Society, they would be interesting additions to its collection.

With kind regards and hoping to see you ~~here~~ in the course of a few days, I am,

Very sincerely yours,

AMBASSADE DE FRANCE

WASHINGTON

Dec. 18, 1912.

Dear Mr. President.

Answering your kind letter, I beg to state that a bill has been laid before our Parliament in view of a day being selected for a yearly national fete in honor of Jeanne d'Arc.
For the present, an annual commemoration takes place, but a local one, held at Orleans, to celebrate the deliverance of the city (8th of May).
My impression is that if the day of the birth were selected for the intended national fete, the 6th of Jan. would be chosen without the change in the calendar being taken into account.
Allow me to add that I am deeply touched by the intention of you and your friends to raise a monument to the heroine of the France of the past and the France of to-day, the simple, valorous, clear-sighted, ready-witted, impassioned girl of Lorraine, who awakened a great country from an almost deadly sleep, changed the course of history, died as she had lived, a model for men and women of all time, winning the admiration of friend and foe alike, and desiring that all think of her who never thought of herself, as modest at the head of armies as she was pasturing her sheep, and leaving, in the brief span of a nineteen years' life, a record with which no other can compare.
Believe me, dear Mr. President.

Most sincerely yours,
Jusserand

My dear Dr. Kunz:-

I found when I counted the package of cards and envelopes that you had sent me about the right number of envelopes (450), and only about 295 cards. I have the envelopes all addressed so when I receive the remainder of the cards and the programmes that go with them, I can send them [illegible] at once.

I would have liked to have waited here and seen you this evening, but I was working over the Joan of Arc business until nearly nine o'clock last night, and got home just in time to crawl into bed rather later than usual, so I father feel like going home and getting a comfortable dinner, and seeing the family.

My dear Dr. Kunz:-

I enclose herewith my check to the order of Tiffany & Company for twenty dollars for say for the insignia of the New England Society, which is for the Society and should be so billed, not to me personally.

Regarding the charge of $11.25 for engraving two medals, I have let this run for the reason that I wanted to talk it over with you, but I have been so much occupied that I have not had time to get into see you about it, and it certainly is time it was settled up. This charge was for engraving two medals and for stamping a name, in gilt, on two boxes. The boxes were furnished by me with the medals. In 1912 you had two similar medals engraved for me. The engraving was just the same except that the names were different, and your charge at that time was five dollars for engraving the two medals. There were no names stamped on the boxes as were the case with the last two, and it, therefore, looks to me as if you charged about double the amount this year for the same work. I would be very glad if you would look into this and see how it is, as I want to get this settled up and out of the way.

I will get in to see you the first chance I get, but we are getting ready for an exhibition of coins to be held next winter which is taking up so much time that it is a little doubtful just when I will be able to get in.

With kind regards, believe me,

Very sincerely yours,

Dr. George F. Kunz,
c/o Messrs. Tiffany & Company,
401 Fifth Avenue, New York.

My dear Dr. Kunz:-

I have just received the most interesting clipping from the Daily Consular Reports regarding the New Currency System of China, which I am very glad indeed to have and for which I am very much obliged. Also the War Department circular regarding campaign badges. I note that there are six of these badges:- Civil War, Indian Campaigns, Spanish Campaign, Philippine Campaign, China Campaign and Army of Cuban Pacification. I know of all but one of these badges, and am very anxious to get specimens of them if it is possible to do so.

Some years ago I tried very hard to get from the War Department a blank medal of honor of the design that was adopted in 1904, but General Ainsworth was at that time Adjutant General, and he turned me down in a most emphatic manner possible. I understand that he had a great reputation for rules and regulations, and a high regard for red tape. Whether it would be possible to get this now, or to get these service badges, of course I do not know. If you have any suggestions to make, or if there is any way that you could help me, I would be very glad indeed, because these are most important for us to have, and while in time it may be possible to dig up specimens that has belonged to soldiers, and which, of course, are very much more desirable than those that were not awarded, still it might easily be years before any would turn up.

I obtained a blank medal of honor, the naval good conduct medal and the naval service medals, which, with the exception of the last two, correspond with those army service badges from the Naval Department some years ago without the slightest difficulty.

With kind regards, I am,

Very sincerely yours,

New York City.

Dear Mr. Belden:

I note that at the last meeting of the Society an amendment to the by-laws was adopted for a new standing committee to be known as the Committee on Publicity, the object of this committee being to see that the Society and its various exhibitions get proper recognition on the part of the press. I note further that I was appointed chairman of this committee, the other members being Mr. F. C. C. Boyd, and Mr. Howland Wood.

I shall be very glad to accept the chairmanship of this committee if Mr. Wood can give me such cooperation as I should like, and I have always found him most courteous and responsive.

Believe me,

Very truly yours,

My Dear Dr. Kunz:-

Your letter of July 30th enclosing letter from Mr. Stewart regarding the Dewey medal has been duly received. We have one of the Dewey medals here, and if you want it photographed it can be done. We also have a Kaiser medal for Chantemano. It differs from the Samson medal for Santiago only in the word of the inscription. I presume however Mr. Samson knows about that. If there is any information wanted that I can give I will be glad to do so. I return Mr. Stewart's letter herewith.

## Newspapers' Attempt to Place Him in the Field for Congressional Honors Fails to Be an Inducement.

For some weeks past several newspapers in Herkimer and Oneida Counties have had nice things to say about Col. John W. Vrooman, one of the village of Herkimer's prominent and esteemed townsmen, in connection with suggestions that he would make a good man to choose for nomination to congress. All of this is duly and cordially appreciated by the colonel and his legion of friends in this and other places, and so far he has had little or nothing to say about the proposition, except to deny as occasion demanded the implication that he might consent to run But the talk along this line has been sufficiently persevering and widespread to merit some attention in a public way before it grows more emphatic and assumes a measure of consent from silence.

Col. Vrooman is too busy just at this time to think of entering the political game, and especially as a candidate for the important congressional nomination. He is allied with and holds office in various of the patriotic organizations of the state and is among the most prominent members of the Masonic fraternity in the country. Much of his time is given to duties and various demands upon him in these connections, which also of course necessitate a good deal of travel, often to distant points. He is a man devoted to his church and kindred organizations at home as well, and feels that in these activities he has a field of sufficient usefulness, leaving little time or disposition to devote to politics in a personal sense.

According to Tiffany & Company's bill, the lead medals of Lincoln that you struck for the Society were delivered on the fifth of May last. Since that time we have been waiting for the return of the dies. I have written to you several times about these dies, and have also spoken to you a number of times about them.

These dies are valuable to the Society, and we want them very much, and it seems to me that nine months is rather a long time to keep us waiting for them. I would be greatly obliged if you would give this matter your attention, and have these dies returned to the Society.

In the course of a few days we expect to begin work putting a petition in the storeroom in the basement, and doing a considerable amount of other work around the building. I find that our storeroom is getting very much crowded, and the changes we are going to make will make it more crowded yet. The Joan of Arc material that is there takes up much more room than we can really spare, and I am writing to ask if you cannot arrange to have that material taken elsewhere.

The next time I see you I will explain just why it is we are becomming so much more crowded than we have been. It is rather a long story to put in this letter. I will try and drop in to see you some day next week. In the meantime I would be glad if you would let me know just what can be done about the Joan of Arc material.

I hope you will get up to the meeting to-morrow.

FOUR HUNDRED AND FIVE FIFTH AVENUE

New York City,
2 March, 1917.

THE AMERICAN NUMISMATIC SOCIETY

of this city, respectfully advise His Excellency the President of the United States that since one of the most serious matters in regard to the prestige of a nation is the dignity of its coinage, - when a gentleman is selected to fill the now vacant position of

Engraver
at
The Mint of the United States,

he be some one of artistic ability and attainments who will faithfully reproduce the designs of those eminent sculptors selected to make the models for the coinage, so that they may be artistically rendered.

When this position was created, the engraver at the Mint did the engraving; at the present time the duty of the engraver consists simply in producing by mechanical means the original model of the sculptor upon the die itself, and any interference upon the part of the engraver will mean that the artistic element will be in danger of obliteration, to the detriment of the coin and the injustice of the artist- as was the case with the work of the late Augustus St. Gaudens, Victor D. Brenner, John D. Fraser, Bela S. Pratt and others.

We would respectfully suggest that this matter could be referred to a commission selected from the

National Sculpture Society,
American Fine Arts Society,
American Numismatic Society, and
The American Scenic and Historic Preservation Society,

who will be glad to cooperate with the Director of the Mint so that our coinage of the future will be what it should have been in the past.

It is suggested that President Edward T. Newell of the American Numismatic Society appoint a Committee to forward these resolutions to His Excellency, the President, in such form as they may deem best.

Dear Dr. Kunz:-

I have delayed writing you until after I had seen Mr. Newell. Both he and Mr. Wood think your suggestion for the opening of the exhibition of the Morgan Collection on October 15th in connection with the Aqueduct opening a very good one. We are proceeding with our plans for it, and can at present see nothing that will interfere with them. Will you communicate with us during the coming week, or with Mr. Wood after eleventh of this month regarding an announcement of the exhibition ? We should be glad to have you see the collection should you have an opportunity to do so.

Yours very sincerely,

Secretary.

Dear Dr. Kunz:-

I am sending you herewith the letters you were so good as to select yesterday together with the necessary enclosures. I have had one letter folded in the way which we have found to be best - that is with the buff circular on top, the card next and then the return envelope folded inside the letter sheet. Will you kindly sign the added paragraph and the card in the space indicated "Proposed by". A rubber stamp could be used on the card, but it would of course be much better to have your own signature.

Permit me again to thank you for your co-operation.

Very respectfully yours,

with the American Mathematical Society, Section A of the American Association, and the American Astronomical Society. At this session Professor Ernest W. Brown, the retiring president of the society, gave his retiring address on "The Relations of Mathematics to the Natural Sciences." This was followed by the retiring address of Professor A. O. Leuschner, vice-president of Section A of the American Association, on "Derivation of Orbits—Theory and Practise." A joint dinner of these four organizations was held Thursday evening, following which speeches were made by Professor Florian Cajori, President R. J. Aley, Mr. William Bowie, Professor J. A. Miller, Mr. G. A. Plimpton, and Professor Dunham Jackson.

The meeting on Friday morning was first addressed by Professor Florian Cajori, of Colorado College, who read a paper on "Discussions of Fluxions from Berkeley to Woodhouse." Professor M. W. Haskell, of the University of California, gave a paper entitled "University Courses in Mathematics Intended for Teachers of Secondary Mathematics." This was followed by a discussion led by Professor J. W. Young, of Dartmouth College, and Professor Edward Kasner, of Columbia University. During the time between the morning and afternoon sessions, opportunity was afforded by Professor David Eugene Smith for the inspection of his admirable collection of portraits and medals of mathematicians. On Friday afternoon was held the meeting of institutional delegates. This department of the association was organized for the consideration of those phases of collegiate mathematics which are of an institutional character rather than of merely individual interest; such questions as entrance requirements, requirements for degrees, maintenance of libraries, etc., will properly come under this department. The program was devoted to the subject of mathematical libraries, and consisted of a paper on "A Nucleus for a Mathematical Library," by Dr. T. H. Gronwall, of New York City, and of the reading of a report from the recently appointed library committee by the chairman, Professor W. B. Ford, of the University of Michigan, with an accompanying discussion. The program closed on Saturday morning with an address on "The Mathematics of Aërodynamics" by Professor E. B. Wilson, of the Massachusetts Institute of Technology, with a discussion led by Professor A. G. Webster, of Clark University.

The annual election is conducted both by mail and in person at the meeting; in this way a total of 405 ballots was received. The list of officers elected for the year 1917 is given herewith:

*President*, Florian Cajori.

*Vice-presidents*, Oswald Veblen, D. N. Lehmer.

*Secretary-Treasurer*, W. D. Cairns.

*Members of the executive council to serve until January 1920*, E. R. Hedrick, Helen A. Merrill, R. E. Moritz, D. E. Smith.

E. V. Huntington was chosen by the council to fill the vacancy caused in the council by the promotion of Professor Cajori to the presidency.

Fifteen persons and sixteen institutions were elected to membership; thus 1,064 individuals (deducting the number of those who have died during 1916) and 76 colleges and universities of the United States and Canada now hold membership in the association. Applications from thirteen individuals and one institution have been received since the New York meeting.

The association has a system of sections organized by the members of the various groups, mostly those within state lines. Such sections now exist in Kansas, Ohio, Missouri, Iowa, Indiana, Kentucky and Minnesota, with a section covering Maryland, the District of Columbia, and Virginia.

The report of the treasurer showed that a fund of $958.72 had been transferred to the association from the former management of the *American Mathematical Monthly*, and that the business for the year 1916 closed with a balance of approximately two hundred dollars.

An important arrangement has been entered into by the association with the *Annals of Mathematics*, which bids fair to exert an important influence upon the development of collegiate mathematics, in that it will foster the production and publication of articles of an expository and historical nature. In consideration of a subvention from the association, the board of editors of the *Annals* will increase the size of the magazine from 200 pages (its present size) to 300 pages annually, beginning with the number for June, 1917. The subscription price for individual members of the association will be one half of the ordinary price, which latter will be three dollars instead of the present price, two dollars.

The summer meeting of the association will be held by invitation of Case School of Applied Science and Western Reserve University at Cleveland, Ohio, on September 6 and 7, in conjunction with the meeting of the American Mathematical Society, with which the association has rightly so much in common. The next annual meeting will be held by invitation at the University of Chicago next December, in connection with the meeting of the Chicago Section of the society.

W. D. Cairns,
*Secretary-Treasurer*

fertile. According to Donaldson[2] the menopause normally occurs at the age of 15 to 18 months, although he reports one female which, mated at the age of 22 months, produced a litter of one. The young was not reared, however.

Four of our stunted females were mated at various times. The results are summarized in tabular form. Data regarding their early stunting and subsequent resumption of growth have been published elsewhere.[4] In every case the female was not remated until some time after the birth of a litter, as the maximum number of broods which she could bear was of much less interest than the final age at which she was capable of producing young. Although none of these rats began breeding until they had reached an age when normal rats are commonly believed to be approaching the menopause, they produced from three to six litters of young and successfully reared all but a few of them. Their young were apparently as vigorous as those born of younger mothers. Hence the menopause has been postponed long beyond the age at which it usually appears. In view of this, and the added fact that less than one third of our stock rats have reached an age of more than two years, whereas all of these stunted females lived longer, it appears as if the preliminary stunting period lengthened the total span of their life.

Dear Dr. Kunz.

Since writing you I have seen the Director of the Mint and have secured his promise to let the Library of Congress have the loan of the German war medals for an exhibition. Can you tell me how your American Numismatic Society Collection covers the ground of American history? Is there a catalogue? Thank you for your kind offer to take me to see the collections. I hope to avail myself of your courtesy.

Yours faithfully

Dear Mr. Newell:

The enclosed letter explains itself. After conferring with your associates, I hope that we can have a talk together and possibly enter into useful arrangements with The Commission of Fine Arts that would materially aid them and at the same time help to dignify our society still more. Possibly we can have him at a meeting of our society some evening. He was formerly director of the Fine Arts Museum in Detroit.

Sincerely yours,

George F. Kunz

P.S. I should like to see you about an important mid-Winter exhibit.

P.S. Kindly return the letter to me when you are all through with it

My dear Mr. Noe:

It occurred to me that it would be a splendid thing if it were possible to obtain the co-operation of the Mayor's Committee on National Defense, who originated the Fourth of July Pageant Parade. I had the honor to be Chairman of the History and Pageantry Committee, and feel that there should be co-operation between the two organizations.* It seems to me that it would aid in the sale of medals, and might mean some new members as well. There are some very important citizens on the Committee.

With kind regards, I remain

Dear Sir

Mr. Kunz requests us to acknowledge the receipt of your esteemed favor of the 28th instant

We shall proceed to make a wooden box for the Prince of Wales medal. We understand that the medal is to be 2½ inches in diameter

A plate of the same color of metal that the medal is made of could be engraved and placed on the case, or a printed inscription could be placed inside the cover, possibly framed in the rear cover

Have you any preference in regard to the lining of the case? Have you the Prince of Wales' colors?

If there are any points you wish to clear up, kindly call Mr. Kunz on the telephone

Dear Dr. Kunz:-

As per my telephone conversation with you yesterday morning, the Society is considering the presentation of a gold membership medal to Her Majesty the Queen of the Belgians who was elected an Honorary Member at the last meeting of the Council. May I ask that you kindly advise me the cost of such a gold medal and that you tell me the amount of time that will be necessary for striking the piece. Would it be possible to have the front of the medal a little less thick than is the case with the silver membership medals? I should appreciate an early word from you in regard to this matter.

Dear Dr. Kunz:-

Sometime ago you asked either myself or Mr. Wood for the inscription to be placed upon the box you are making to hold the gold medal which is to be presented to the Prince of Wales. We feel that the simple statement of fact is all that is required, and I am submitting for your approval such a statement. It seems overlong but I see no way for shortening it advantageously. I think your suggestion was that there be a plate of thin gold attached to the cover, engraved with this inscription. Kindly let me have your opinion of the wording at your convenience.

Very respectfully yours,

Secretary.

Dear Dr. Kunz:-

This brief note is an attempt to express the appreciation of Mr. Newell and my associates for your successful efforts in arranging the presentation of the gold membership medal to Her Majesty the Queen of the Belgians. I should appreciate if when next you communicate with Mr. Saltus you would tell him about the presentation and how successfully it was carried out. The newspaper notices, though brief in some cases and as usual erroneous in others, were nevertheless very satisfactory. The Herald reproduced the medal, and I am sending a clipping with that reproduction to Mr. Saltus. If you could have an additional print made and sent to me for use in the Numismatist I should like it very much.

Again thanking you for the latest expression of your constant interest in the welfare of our Society, I beg to subscribe myself,

Yours very respectfully,

Dear Mr. Noe:

Your esteemed favor is at hand.

The part I did was very small compared to what you all did. I think the pulling together made the matter the success it was, and it seems to me that Their Majesties appreciated the reception and the medal. It was fortunate that we were among the first introduced. I am sure the medal and committee made a lasting impression on both Their Majesties and our intentions were fully realized.

I have just received a cable from Mr. Saltus saying:

> "Thanks. Congratulations to Newell and yourself. Long live the King and Queen!"

I wish that you would write your part of the presentation.

E. T. Newell, Esq., President,
The American Numismatic Society,
Broadway & 156th Street,
New York City.

Dear Mr. Newell:

Confidentially, at a meeting of the Trustees of the Century Association yesterday evening, acting on motion of mine made some months ago, the matter was discussed of the issuance, from time to time, of medals of distinguished members such as Joseph H. Choate, Theodore Roosevelt, John La Farge and so forth. I was empowered to inquire whether The American Numismatic Society will cooperate or jointly issue these medals with the Century Association, the Century Association being prepared to aid on possible deficits.

The idea is that sculptor members will design the medals, and as Herbert Adams has been President of the National Sculpture Society and the National Academy of Design, and is working on a great Choate memorial, it was thought that he would be the proper person to make the Choate medal.

I am very desirous to have some word before our January meeting - the second Thursday in January. Will it be possible for you to see me in some way to discuss this further?

In regard to the coins of Pan-America, the United States National Museum is willing to have such an exhibit made there, and I believe that according to Mr. Maryland Jones's estimate, it would be possible to make an exhibit of the modern coins at a cost not exceeding $300.00. Can we discuss this.

Hoping that this finds you in the best of health,
I remain,

Very truly yours,

George F. Kunz.

I am enclosing a print of the Prince of Wales medal, together with a circular describing it.

In accordance with our telephone conversation, will you kindly take up with an officer of the Pilgrims Society the question of whether they would like to have their membership participate in this medal? The matter will be laid before our Council next Tuesday, if you can secure a response before that time.

Very respectfully yours,

Gentlemen:

The National Academy of Design has founded the Elizabeth Watrous Medal for sculpture. Speaking with Harry Watrous, her husband, the other evening, I inquired whether it would be possible for the American Numismatic Society to have one and he requested that the Society write him asking for one or two medals, so that one or both sides could be shown for exhibition. Kindly do so and oblige,

Dear Dr. Kunz:

I beg to hand you herewith a plate for the certificate of membership for the Prince of Wales. I think the suggestion made by you to Mr. Wood is entirely satisfactory. We do not want a parchment certificate. A good quality paper will be sufficient.

I am sending a note today to the Second Pan-American Financial Conference at Washington, regarding our exhibition of South American coins.

Mr. Wood told me that you were unable to give him the figures for our membership medal as yet. This matter has hung fire for more than a month, and I am being severely criticized for a lack of action. Mr. Weil has offered to help us out, and I am, therefore, going to ask you to let him have the dies, in order that we may get a few of these medals struck at once, to satisfy the members who want them. I am very sorry that this course is necessary, but the matter is now practically out of my hands. I appreciate that pressure of other affairs has prevented your prompter action, and know you will understand that the necessity for getting immediate results makes it impossible for me to meet your request for additional time.

Dear Mr. Reilly:

I am in receipt of your affidavit on entry of works of art, etc., covering the shipment of medals, decorations, coins, etc., made by Mr. J. Sanford Saltus through Tiffany & Co.

Members of the Council were very much interest and quite in accord as to the desirability of such co-operation as could be brought about. Dear Dr. Kunz:-

I am enclosing the ribbon for a miniature of the Order of Leopold II of Belgium, which seems to match the description given me by the Librarian of the Bank of Commerce for the Order awarded to an Officer of that Bank. I understand that they have not yet received the decoration - only a description of it. This ribbon matches their description, but as there are different ribbons for the several classes of this order, there is room for a mistake unless their description is absolutely accurate.

Kindly return the ribbon at your convenience together with the ribbon for the Order of Leopold sent you today by mistake.

DRAFT

June 11th, 1920

To the Publication of Medals Committee
of the American Numismatic Society
New York City

Gentlemen:

May I refer to the proposal of the Century Association to publish a medal to commemorate Joseph H. Choate's services to his fellows, which has already been brought to your attention by Dr. W. Gilman Thompson, one of the members of the Century Association's Committee and, also, a member of your Council?

I am authorized by the Chairman of this Committee, Cass Gilbert, Esq., who is at present in Europe, to enquire whether the following arrangement would be satisfactory to the American Numismatic Society -

The Century Association will bear the cost of the dies and of the model by Herbert Adams, President of the National Academy of Design. It is proposed to issue the medal under the joint auspices of these two organizations, extending the privileges of subscribing to members of the Bar Association, _____, _____ and, possibly, other similar Societies. Upon having received the approval of the Publication of Medals Committee of the American Numismatic Society, the medal would bear the Society's Seal, and its publication would be similar to the handling of other medals which your Society has issued. After deducting the expenses of striking the medals and those incident to delivery, such as postage, printing, etc., the proceeds would be equally divided between the Century Association and the American Numismatic Society.

If this arrangement is satisfactory, will you kindly so inform me in order that immediate steps may be taken to proceed with the publication?

Very respectfully yours,

June 25th, 1920.

Dr. George F. Kunz,
[illegible] Fifth Avenue,

My dear Dr. Kunz:-

I need hardly point out that we cannot print the circular until we receive all of them. May I therefore ask that you expedite their replies to your invitations?

Will you have enquiry made of the secretaries of the several organizations as to their facilities in reaching their members with this circular - that is, whether they could send it out with a periodical notice as you suggested; or, failing that, whether they have addressographs or a substitute means of providing members' addresses?

Has the Century Association a cut of its Seal which we could use in conjunction with our own - somewhat as in the accompanying folder?

In 1919 an exhibition of medals was held in the Gallery of the Century Association where it attracted a great deal of attention to this field of sculpture. For this exhibition the American Numismatic Society loaned a considerable number of plaques and medals from its Cabinets. As an outcome of the exhibition, a proposal was made that these two organizations should collaborate in publishing a medal, the subscription of which should be open to their members.

It is particularly fitting that the medal decided upon should commemorate the public services of so great an American as Joseph H. Choate. His singular ability in many fields, his charming personality, and the very great measure of accomplishment which rewarded his efforts, mark him as one of the most gifted men America has produced. "Patriot, Ambassador, Jurist, Orator" our medal rightly proclaims him, but does it not seem that the winning of the admiration and affection of the American people was his greatest achievement?

The design of the medal was entrusted to an artist who had known Mr. Choate intimately -- Herbert Adams, National Academician and President of the National Academy of Design from 1917 to 1919. His work for the Library of Congress and St. Bartholomew's Church of New York, as well as the statues and memorials throughout the country, testify to his eminence as a sculptor. The medal which he has designed is an exquisite

presentation of the personality of a great man.

It has been thought fitting by the Committee of the Century Association, with the concurrence of the American Numismatic Society, to extend the privilege of subscribing for this medal to other bodies of which Mr. Choate was an honored member. Invitations to participate were received and accepted by the Bar Association, the Harvard Club and the Lotus Club.

Copies of the medal will be issued in silver and bronze. The price of the silver will be fixed at $10.00, and those of the bronze at $5.00. Subscriptions, stating the number desired in each metal, accompanied by cheques to the order of the American Numismatic Society, ~~Broadway~~ should be addressed to the American Numismatic Society, Broadway and 156th Street, New York, N.Y.

Can you possibly give us some idea of the number of medals that will be required for the presentations contemplated by the Committee of the Century Club? You will understand that I am asking because it is necessary for us to order the medals in as large a quantity as may be, and also because it requires from two to three weeks to prepare them. We have on hand reserved for this purpose five medals in silver and five in bronze but these are hardly adequate, or at least I understand they will not suffice for the gifts which are projecting. You will possibly have noted that the Metropolitan Museum records the gift of one of the silver medals.

I should much appreciate your co-operation in this regard and so present a reply as may be possible in the circumstances.

Bonds. He further says that the last list of descriptions he recalls having received through Tiffany & Co. on Mr. Belvin's account were those which were intended for the French Depart and mistakenly delivered to us. He says that Mr. Belvin on more than one occasion has asked whether we had received what must have been this consignment, but as we did not have any information concerning it, we could only tell him that it had not yet arrived.

The pieces which we received on Nov. 25th, of which I spoke to you over the telephone, contained a number of English ministures, and in several other respects do not agree with the description on the accompanying forms.

July, 1922.

WHEREAS the Members of The American Numismatic Society, along with those of many another similar organization, are saddened by the death of J. Sanford Saltus, a Member of the Society since November 21, 1892, Patron in 1906, Benefactor in 1909, Corresponding Secretary from 1900 to 1906, Vice-President from 1907 to 1910, Member of the Council from 1910 to 1918, Honorary Councillor for Life in 1917, and Honorary Governor for Life in 1922, and

WHEREAS his consistent concern with all that came for the welfare of the Museum of the Society, whether it bore relation to the building, the personnel of the Staff, the meetings of the Society or any form of its activities, for such as to make cessation of this interest a constant reminder of him, and

WHEREAS the collection of Decorations in the Museum of the Society will always be associated with his name; the collection having been begun by him, and through his continuous generosity having assumed its present proportions, so that it is questionable whether there is anywhere a more complete collection, and

WHEREAS his interest in medals stood second only to that in Decorations, having been manifested by his suggestions for many medals issued by the Society during the past six years - medals which would have been impossible without his support. and as well by the gift of the sum of Five Thousand Dollars for establishing the J. Sanford Saltus silver medal to commemorate artistic achievement in the art of the medal, and

WHEREAS he was a Contributor to the Building Fund, and was one of the two other individuals who were the largest contributors towards the Avery Fund, and was ever ready to contribute substantially to all funds for the benefit of any section of the collection, including the purchase of the Higgins, the Ho and Bettinger collections, to make no mention of the individual pieces which he has presented from time to time, such as the all but unique Confederate Half-Dollar, the unique Crown of the Rose and numerous other important historical or artistic desiderata

RESOLVED by the Members of the Council of The American Numismatic Society, as a testimony to the esteem and affection in which Mr. Baltus was held by them and by the other members of The American Numismatic Society, that this Resolution be engrossed in their Minutes on pages set aside for that purpose.

IN REPLYING QUOTE INITIALS

# TREASURY DEPARTMENT

WASHINGTON

July 17, 1922.

Dr. George F. Kunz,
405 Fifth Avenue,
New York, N.Y.

Dear Dr. Kunz:

Upon my return to Washington my attention was called to your letter of July 12 in which you refer to the death of Dr. Comparette.

It has occurred to me that you might be of material assistance to us in securing the names of candidates from which to select a successor to the position held by the late Dr. Comparette. The position of Curator at the Philadelphia Mint is an exceedingly important one, as you know, and should be filled by a man especially qualified for the position. The collection at Philadelphia is extremely valuable and I am loath to permit it to be turned over to the custody of any one who has not the proper qualifications. We are embarrassed by the fact that the salary attached to the position is but $1800, and a bonus of $240, making a total salary of $2040. If you have any suggestion to make which will help us I need hardly assure you of the appreciation of this Bureau for any service you may render us in this respect.

Respectfully,

M. O. Roberts
Director of the Mint.

Dr. George F. Kunz
Messrs. Tiffany & Co.
Fifth Avenue, New York

Dear Dr. Kunz:

The letter you sent me regarding the appointment of the curator of the mint at Philadelphia, makes me wonder whether you have considered the possibility that Dr. A. W. Nelson might entertain the offer of this position.

Since Dr. Nelson severed his connection with the Society, matters in the field to which he turned his attention have not been progressing favorably, and it might be that this opening would be attractive to him. His address is c/o The Marine Bank, 25 Tatnall Street, New York.

For reasons you will understand, I would prefer that my name be in no way connected with the above suggestion. I feel sure, however, that Dr. Nelson would be a very desirable curator of the Mint collection, if he could be induced to accept the position.

Very truly yours,

Secretary

Dear Dr. Kunz:-

I am submitting herewith a statement regarding the Choate Medal. You will notice that the two medals delivered to Mrs. Choate together with two bought by The American Numismatic Society and seven silver and eight bronze medals being held for instructions from the Century Association Committee have all been reckoned at cost.

The proceeds total $427.07. According to our arrangement half of this goes to The American Numismatic Society. The balance, less the cost of the seven silver and ten bronze medals mentioned above, goes to the Century Association.

If you will submit this report to the proper authorities and assure me of its acceptability, I will have a cheque drawn for this amount.

Very sincerely yours,

Secretary.

Dear Dr. Kunz:

I am enclosing a carbon copy of my letter to the Metallic Art Company regarding the filling of future orders for [illegible]. You will recall that, unless the [illegible] issued by us, there was no rule set after which further orders would not be filled. I suppose we shall have numbers of such organizations desiring single copies from time to time, this need not interfere with the settlement proposed in the statement you have already received. The report and the Tertary Association can be supplemented after an interval.

Please confer by remarking the names of those to whom complimentary copies of the report were sent so that the records here may be complete.

Dear Dr. Kunz:-

The address of The British Numismatic Society is 1 Upper Montague Street, Bloomsbury, London, W.C.1.

I think Mr. de Lagerberg proposed Mr. Saltus for membership in the Belgian Society about a year ago, since the published list issued by that Society. Mr. Belden can tell you about this.

I am enclosing a couple of copies of the original bookplate that Mr. Saltus gave us as well as the second bookplate that I am under the impression he gave us also when we dropped the Archaeological out of our title.

I will give you, in a few days, a rough count of what Mr. Saltus has given our Society in the way of coins and medals.

Could you help us out in getting the address of Louis Meridith Howland. Mr. Howland has been a Corresponding Member of our Society since 1895. The only address we have is Paris, France. Perhaps you could throw a little light on this subject, and we may then be able to send him copies of "Numismatic Notes and Monographs".

Personally, I would not give much over the metal value of the medal, about which you ask, as it is neither dated nor engraved with a recipient's name - in other words, it is a medal which was never issued. You do not state what the metal is. If gold, I would give very little over gold value; if in silver, not over $3.00, and if in copper 75 cents at the most.

This will introduce to you Miss Sidney K. Spencer who has been my secretary for some time. We are unable to pay her the salary to which she is entitled and she is therefore trying to find another position.

Miss Spencer has had exceptional opportunities in the way of scientific training not only at Cambridge University but at Columbia here in New York. I know she would be of great help in such work as is being done at the American Museum of Natural History, and I am venturing to ask your kind offices in introducing her there in order that she may learn whether there is any position in which her peculiar training would count as it should. I have a vivid recollection of your courtesy on previous occasions, and I trust that you will not consider this presuming upon your kindness.
